EXPERIENCE

Forestry and Woodland Management

Director responsible for Operations and Forestry at Lockhart Garratt Ltd, preparing and implementing long-term strategic plans for large woodland estates throughout Southern and Central England. Undertake budgeting, grant scheme applications and work supervision. Implement timber sales and

valuations. Wide experience in sustainable management of ancient semi-natural woodlands and SSSI's and working closely with statutory bodies. Manage and implement group certification to UKWAS standard scheme.

Agri-Environmental Management

Undertake research and prepare Environmental Stewardship Scheme Applications and manage the implementation of agreements. Registered Farm Environmental Plan advisor.

PUBLICATIONS

Various articles in trade press and journals including bi-monthly contribution to 'Forestry and Timber News'.

KEY PROJECTS AT LOCKHART GARRATT

Swithland Estate: Management Review

Detailed review of the Estate's woodlands and agri-environmental infrastructure and implementation of a strategic long-term plan of management.

Cambridge University: Woodland Management

Implementation of woodland management in order to meet a wide variety of objectives including the management of an SSSI woodland. Design and implementation of Cambridge University's 800 Wood Commemorative Woodland project and Sita Trust grant application.

Wakefield Lodge Estate, Northamptonshire

Management of 295 hectare woodland estate of which 246 hectares are designated as SSSI woodlands. Implement extensive grant negotiations and forestry operations maximising timber return and profitability for the woodland division.

National Forest Tender Scheme

Extensive involvement with submission and implementation of tender schemes.

Strategic Economic Study of South West England Woodland and Forestry

Commissioned by SWWR with funding from the South West of England Regional Development Agency. This was a collaborative project with ekosgen (Development and Regeneration consultants) with Justin as Project Director for Lockhart Garratt. It involved three key elements a) Economic study of forestry in SW England and b) Stakeholder survey to evaluate the impact of the regional funding of forestry in SW England and c) Recommendations to facilitate sector development. It is becoming the key forestry evidence reference document for policymakers and delivery bodies in SW England. Nov 08 - Mar 09.

Stanion Lane Plantation

Member of the project team involved with the preparation of forestry section of environmental statement supporting 3.5 million square feet of commercial development to be located within existing woodland. Development and implementation of comprehensive mitigation scheme.

Belvoir Estate, Rutland

Detailed review of management structure of the 700ha woodland estate. Preparation of 20-year Strategic Management Plan and Budget. Provide management of forestry department and associated enterprises.

Kingston Estate, Nottinghamshire

Project management of 20-year Strategic Plan and implementation of 5,000m³ softwood and 18,000Hft³ harvesting programme.

Wellingborough Golf Club

Comprehensive management of tree resource including extensive Health and Safety inspections.

Lefini Reserve, Republic of Congo: Preparation of Management Plan

Undertake ecological and socio-economic survey within the Lefini Reserve in preparation for a strategic management plan.
